TIKGAMES AND CREAT STUDIOS TO RELEASE SKYFIGHTER FOR THE PLAYSTATION® NETWORK IN NORTH AMERICA

*Arcade Style, Side-Scrolling Aerial Combat Game Launches on PSN on
November 16th for North America*

November 15, 2010 – TikGames (San Mateo, CA) and Creat Studios (Canton, MA) today announced that *SkyFighter* will be available for download on the PlayStation®3 computer entertainment system on Tuesday, November 16th in North America after launching earlier this fall in Europe. The eighth release under the partnership between the two companies to deliver next generation console games, *SkyFighter* features side-scrolling aerial combat and 8-player local multiplayer, and will be available via Sony's PlayStation®Network for \$9.99 / €9.99.

The Alliance Air Force needs you! Join the elite SkyFighter airborne squadron in fast-paced, side-scrolling airborne battles. Gamers learn to pilot all kinds of aircraft in all types of weather, day or night, from light, aerobatic, maneuverable fighters to the devastating flying fortress. Missions include bombing the enemy's equipment and fortifications, shooting down their fighters and destroying their hostile bombers. Wing Mode allows for teaming up with an ace-flying friend to overcome all "sky challenges" together, while Dogfight Mode lets players battle up to 7 others.

"TikGames is thrilled to bring Skyfighter to the PlayStation®Network in North America. In this intense aerial combat game, players will engage in fast paced, high-flying, side-scrolling action, combined with the best of modern gameplay," said Anatoly Tikhman, Founder and CEO of TikGames, LLC.

SkyFighter supports full 1080p, custom music, and SixAxis controls. Players can even shake their controller to extinguish the flames when their plane is on fire!

“Creat Studios is excited to deliver another high-quality action game like *SkyFighter* to the PlayStation® Network,” said Vladimir Starzhevsky, co-founder and CEO of Creat Studios, Inc. “We are pleased to continue our commitment to bring PlayStation®Network players the most enjoyable and entertaining titles.”

SkyFighter will include PlayStation Trophy support and has been rated “E” for Everyone by the Entertainment Software Rating Board for this platform.
